Beginnings Assisted Conception Unit Self-funding price list

1st May 2026 to 31st March 2027

Self-funding treatment is for those patients who are not eligible for NHS treatment.

Please note that payment will need to be made in full before treatment commences.

Consultation fees

Initial consultation	£240
Follow-up consultation	£200

The treatment type and items included in the various package cost is detailed below. Please be aware some things are NOT included in the initial price, extra costs may be incurred for the following:

- **Freezing of surplus embryos** (if required)
- **Semen analysis** (if required)
- **Additional blood tests** (as required), please be aware these may not be covered in NHS cycles

Patients will be sent an invoice prior to commencement of treatment.

Please note we do not charge for blastocyst culture. If anything is unclear, please clarify with a member of the team.

Medication per cycle (This is an average cost and is subject to change dependant on type of treatment and individual needs. Fees are charged by the pharmaceutical company directly to patient)	£900 - £2500
IVF cycle • Nurse consultation • Counselling session • Ultrasound scans and blood tests as required for treatment • Surgical egg collection and sperm preparation • Blastocyst culture in the EmbryoScope™ (as appropriate) • One fresh embryo transfer* (with use of EmbryoGlu®) • Early pregnancy ultrasound scan or one follow-up consultation with doctor if a negative outcome (within 3 months) If embryos need to be frozen for medical reasons; freezing and storage for one year will be covered in the price instead of a fresh transfer. The follow up FET cycle will be charged as per the price list	£4200
If embryos need to be frozen for elective reasons; freezing will be covered in the price instead of a fresh transfer. Annual storage fee will be payable. The follow up FET cycle will be charged as per the price list	£450
Cancellation of IVF/ICSI cycle (Before Stimulation) (If a cycle is cancelled, a charge for services performed will be applied, for hormonal blood tests and clinical advice) Cancellation of IVF/ICSI cycle (After Stimulation) (If a cycle is cancelled, a charge for services performed will be applied, for hormonal blood tests, Nurses appointments and scans)	£525 £1050
Intra-Cytoplasmic Sperm Injection (ICSI) – per cycle	£1400
If a <u>second fresh IVF cycle</u> is started within 6 months of the first Egg Collection a discount will be applied. Your second stimulation should start within 5 months after the first egg collection. FET cycles are not included. (See IVF Cycle for what is included)	£3650
If a <u>third fresh IVF cycle</u> is started within 12 months of the first Egg Collection a discount will be applied. Your third stimulation should start within 11 months after the first egg collection. FET cycles are not included. (See IVF Cycle for what is included)	£3200

Beginnings Assisted Conception Unit

IVF package (Duo-stimulation with frozen embryo cycle) - Nurse consultation - Counselling - Ultrasound scans and blood tests as required for duo-stimulation treatment - Two surgical egg collections and sperm preparations - Blastocyst culture in the EmbryoScope™ (as appropriate – x2) - Freeze (x2) and one year storage fee - Frozen embryo transfer (with use of EmbryoGlue®) - Early pregnancy ultrasound scan or one follow-up consultation with doctor if a negative outcome (within 3 months)	£8295

Shared Motherhood Package This package is designed for same-sex female couples wishing to use assisted reproduction so that one partner gives her eggs to the other, who has an embryo (which is created using donor sperm) transferred and carries the resulting pregnancy. - Initial Nurse Consultation - Ultrasound scans and blood tests as required for treatment - Surgical egg collection and sperm preparation - Blastocyst culture in the EmbryoScope™ (as appropriate) - Embryo freezing and one year storage fee - Cycle monitoring for Embryo Transfer - Embryo transfer procedure (with use of EmbryoGlue®) - Early Pregnancy scan or one follow up consultation with doctor if negative outcome (within 3 months) Above price does NOT include cost of donor sperm or courier fees. For all donor sperm cycles, implications counselling is mandatory before commencement of treatment. The counselling fee is paid directly to the counsellor. Please ask for counselling information.	£6615
Egg freezing Egg freeze 1st Cycle - Blood tests required for treatment - Nurse consultation - Counselling - Ultrasound scans - Surgical egg collection - Egg freezing and one year storage fee - Follow-up consultation with doctor Egg freeze 2nd Cycle - Nurse consultation - Counselling - Ultrasound scans - Surgical egg collection - Egg freezing - Follow-up consultation with doctor Egg freeze 3rd Cycle - Nurse consultation - Counselling - Ultrasound scans - Surgical egg collection - Egg freezing - Follow-up consultation with doctor Please note, if you purchase either the 2 or 3 egg freeze cycle packages, these must be completed within a 6 month period to take advantage of the saving.	£3500 £3000 £2500
Egg Thaw Cycle - Ultrasound scans - Sperm preparation with Microfluidic device - ICSI - Blastocyst culture in the EmbryoScope™ (as appropriate) - Embryo transfer (with use of EmbryoGlue®) - Early pregnancy scan, or one follow up consultation with doctor if a negative outcome (within 3 months) - Embryo Freeze & 1 years Storage (for surplus embryos)	£3000

Preimplantation Genetic Testing (PGT) IVF cycle treatment fees are applicable to all patients undergoing PGT cycles. Embryo freeze and one year storage will be covered in the price instead of fresh transfer and the follow up cost of an FET cycle will be charged as per the price list. An ICSI treatment fee may also be applied. PGT-A can be added to any fresh IVF cycle. The cost of the consultation will be deducted from the Biopsy fee if you proceed. PGT-A (Preimplantation Genetic Testing for Aneuploidy) - PGT-A consultation (mandatory for all patients before treatment) £150 - Prepayment required for Biopsy fee and testing of 2 embryos £1500 (Part refund if no embryos tested) (£1300) - PGT-A screening (price per embryo) £220 - Testing of previously frozen embryos (embryo thaw, biopsy of 2 embryos and refreeze) £1900 PGT-M (Preimplantation Genetic Testing for Monogenic Diseases) - Genetic Counselling (Mandatory for all patients before treatment) - Included in work-up fee, If you do not proceed with testing then you will be charged £160 for the counselling cost £1200 - PGT-M Prep Work-up (no refunds available) £3200 - Prepayment required for Biopsy fee and testing for 1-9 embryos (Part refund if no embryos tested) (£3000) £300 - Each additional embryo PGT-SR (Preimplantation Genetic Testing for Structural Rearrangements) - Genetic Counselling (Mandatory for all patients before treatment) - Included in work-up fee. If you do not proceed with testing then you will be charged £160 for the counselling cost £1900-£2300 - Prepayment required for biopsy and testing for 4 embryos (Part refund if no embryos tested) (£1700-£2100) - PGT-SR Robertsonian Translocation testing (price per embryo) £300 - PGT-SR Reciprocal Translocation testing (price per embryo) £400 Post-test Genetic Counselling £90-160	
Other Treatments Ovulation Induction including follicle tracking £800 - Initial consultation - Ultrasound scans – Up to 4 scans per cycle Additional scans per cycle are charged at £100 per scan - Early pregnancy scan, or one follow up consultation with doctor if a negative outcome Ovulation Induction including follicle tracking with gonadotropins £900 - Initial consultation - Nurse consultation and medication teach - Ultrasound scans – Up to 4 scans per cycle Additional scans per cycle are charged at £100 per scan - Early pregnancy scan or one follow up consultation with doctor if a negative outcome During a multicycle package, If you switch to a cycle with gonadotropins there will be an additional surcharge of £100 per cycle Follicle tracking ultrasound scan only £175	

Fertility Assessments (MOT)

Single Fertility Check-up Package

£575

- Consultation
- Ultrasound scan
- Hormone blood tests (AMH, FSH, LH, Oestradiol, TSH; Prolactin if appropriate)
- Follow-up consultation

Fertility Check-up Package (same sex couple)

£850

- Consultation
- Ultrasound scan
- Hormone blood tests (AMH, FSH, LH, Oestradiol, TSH; Prolactin if appropriate for both)
- Follow-up consultation

Fertility Check-up Package (heterosexual couple)

£725

- Consultation
- Ultrasound scan
- Hormone blood tests (AMH, FSH, LH, Oestradiol, TSH; Prolactin if appropriate)
- Semen analysis
- Follow-up consultation

If you wish to add a Hycosy (tubal patency scan) to your Fertility check-up there will be an additional fee of £400 on top of the package price.

Investigations

Fertility ultrasound scan (single scan)

£160

Pregnancy Scan

£200

(For Ovulation Induction Patients & St Helier Fertility Patients only up to 10 weeks gestation)

3D (± saline infusion) ultrasound scan

£325

Hycosy

£495

3D Hycosy

£495

Semen Analysis

£150

DNA Fragmentation

£250

Microfluidic Device as part of IVF/IUI Cycle

£100

Artificial Oocyte Activation (By recommendation only)

£200

Pre Op Assessment if medically required (General Anaesthetic/Sedation Patients)

£200

Freezing costs (Cryopreservation)

Embryo Freeze

£800

- Includes the freeze and one year storage fee

Sperm Freeze As Part of IVF

£520

- Includes the freeze and one year storage fee (for assisted conception patients only)

Sperm Freeze

£900

- Nurse/Embryology Review & Consent Paperwork
- Blood tests
- Sperm freeze and one year storage fee

Additional Sperm Sample for Freezing

£150

This is per each sample and needs to be within a 2 month period otherwise full freeze cost will apply

Egg, Embryo and Sperm storage

£450

Annual charges for either eggs, embryos or sperm (part year discount is not available)

Administration charges

Import into ACU – There is no admin fee for importing eggs/sperm/embryos from another UK clinic. There will be an upfront annual storage fee for samples not used in treatment within 3 months.	N/A
Fees for Exporting/Importing Eggs, Sperm/Embryos (outside UK) (excluding courier fee – paid directly to courier - for information please speak to staff)	£1000
Fees for Exporting Eggs, Sperm/Embryos (within the UK) (excluding courier fee – paid directly to courier – for information speak to staff)	£250
HFEA fee (IVF/ICSI/FET cycles) – Included in package	£115
HFEA fee (DI cycles) – Included in package	£45
Time-lapse video of embryo(s) transferred in fresh cycle and images of any utilised embryos if cultured in the EmbryoScope™ incubator	£50
Specialist Doctor's letter	£50
